Professional Summary

Computer science and journalism student with experience designing software tools for broadcast, supporting real-time production systems for major televised events, and operating across a wide range of broadcast positions. Interned at The Walt Disney Company and SportsMEDIA Technology and is fluent in both the engineering and operations sides of live media production. Seeking opportunities to build and deploy streaming and broadcasting platforms and services. Interested in problems of scale.

Education

University of North Carolina at Chapel Hill

Chapel Hill, NC

Bachelor of Arts, Computer Science; Bachelor of Arts, Media and Journalism. GPA: 3.86.

May 2027

Relevant Coursework: Video Compression and Streaming, Introduction to Computer Vision, 2D Computer Graphics, Computational Photography, Linear Algebra, Probability, Multivariable Calculus, Discrete Math, Media Law

Experience

Broadcast Architecture Intern

May 2026 – August 2026

The Walt Disney Company

New York City, NY

- Planned, developed, and deployed an internal web scraping tool used by 300+ users at ESPN production facilities in Bristol
- Leveraged AI-assisted development tools to accelerate delivery, reduced software maintenance overhead through AWS cloud services, and explored remote production workflows in broadcast infrastructure

Quality Assurance Intern

January 2026 – May 2026

SportsMEDIA Technology (SMT)

Durham, NC

- Tested broadcast software across multiple sports and production systems to recreate, identify, and document bugs for SMT's media clients
- Operated in an agile-based environment, fulfilling tickets and coordinating with PMs and engineers to resolve issues and meet sprint deadlines for live broadcast deployments

Remote Operations Intern

May 2025 – August 2025

SportsMEDIA Technology (SMT)

Durham, NC

- Assembled and operated real-time data collection and visualization systems for live television broadcasts including FOX's IndyCar and ESPN's PFL
- Selected as 1 of 5 interns to receive extensive training in computer hardware, networks, and computer graphics, supporting engineers in analyzing system performance and configuring data workflows for remote production

Production Assistant

August 2023 – Present

The University of North Carolina, Go Heels Productions

Chapel Hill, NC

- Operate camera, replay, audio, shading, and graphics systems on digital, linear, and videoboard broadcasts
- Contribute to live production coverage of basketball, football, soccer, field hockey, gymnastics, wrestling, and volleyball

Producer

April 2021 – September 2024

The Durham Bulls Athletic Park, Explorer Post 50

Durham, NC

- Selected as 1 of 10 producers to train, assign, and manage interns in television broadcasting operations
 - Worked as Director, Producer, TD, Replay Operator, Graphics Operator, and Camera Operator across live productions
 - Led pre-game and post-game meetings, reviewed member performance, and delivered structured feedback to interns
-

Skills

Broadcast Systems: 3Play, Evertz Dreamcatcher, Ross XPression, Ross Carbonite, SMT, GrassValley, Cameras

Languages: Python, C++, JavaScript, Java, HTML, CSS

Frameworks / Libraries: React, PyTorch, OpenCV, FastAPI

Tools & Platforms: Kiro, Cursor, Kubernetes, Spinnaker, Git, Tableau, Figma, Jira, Confluence

Creative: DaVinci Resolve, Adobe Premiere Pro, After Effects, Illustrator, Photoshop, Maya
